

Bila Tserkva National Agrarian University

<http://www.btsau.kiev.ua>

General Information

- **the University is submitted to the Ministry of Agrarian Policy of Ukraine;**
- **the University consists of 8 faculties, which provide the education on 12 specialisations;**
- **the education is provided by 273 teachers, 12 of them are academicians, 42 doctors of sciences and 172 candidates of sciences;**
- **total number of students – 7800, with colleges – 10000. Direct study – 5420, extramural education – 3500;**
- **Institute of post diploma training for the specialists of veterinary medicine is a part of the University.**

BNAU Faculties

Agronomy

Biotechnology

Ecology

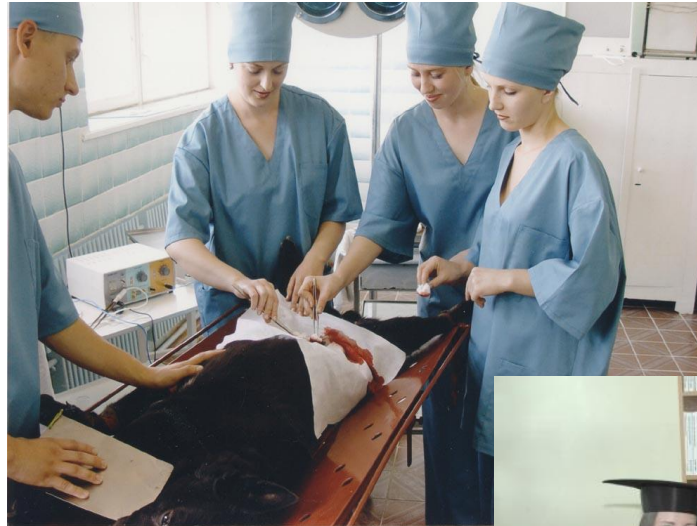

Economics

Veterinary Medicine

Linguistics

Law

Gardening and parks management

Research institutes

- **Institute of agricultural landscape systems;**
- **Institute of internal diseases of farm animals;**
- **Institute of food quality and food safety;**
- **Institute of ecology and biotechnology in animal husbandry;**
- **Institute of poultry breeding.**

Institute of European Integration

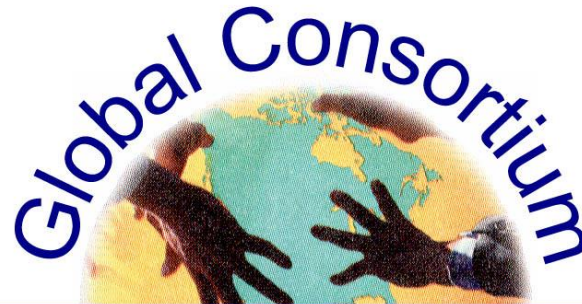

- Harmonization of Ukrainian educational standards to European standards, realization of common educational and research international projects.

University training farm

Size (ha)	1716,9
Arable lands (ha)	1123
Grassland (ha)	85,2
Hedges, waterbodies, gardens (ha)	74,9
Soils	chernozem low humus soil
Plants	wheat, barley, maize, soy beans, buckwheat, peas, sunflower
Cattle	305
Pigs	643
Horses	12
Sheep, goats	693

The BNAU is a member of

of Higher Education and Research

for Agriculture

**The veterinary faculty is a member of European Association
of veterinary Medicine faculties**

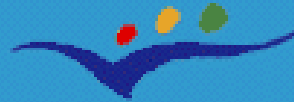

International relations

Participation in Tempus projects

Tempus

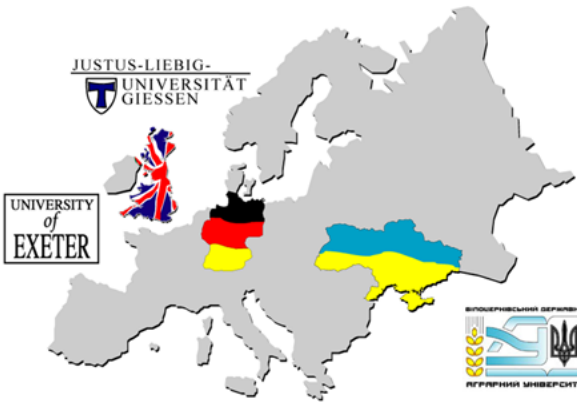

- **Sustainable food chain management**
(2001–2004)
- **Sustainable crop production and farm management** (2003–2006)
- **Agricultural policy and Administration in Ukraine forward the European integration**
(2004–2007)
- **Conception of sustainable development at the training of specialists for agriculture**
(2007–2009)

БІОПЕРИНСКИЙ ДЕПАРТАМЕНТ АГРАРНИЙ УНІВЕРСИТЕТ

- **BioBio - Indicator of biodiversity in organic and low-input farming systems**

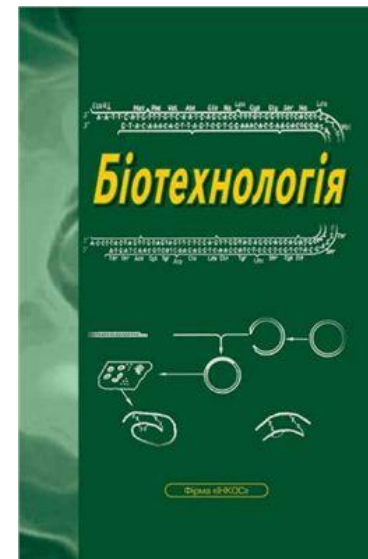

Ecologic faculty

- 7 departments
- 350 students
- 37 teachers (6 professors, 34 PhD)
- Research Institute of Ecology and Biotechnology

Textbooks, recommended by Ministry of Education

- Human ecology
- Ecotrophology
- Food safety
- Biotechnology

Main research interests

- **Nutrition ecology, food safety, ecotrophology;**
- **Development of functional food;**
- **Biodiversity preservation in agroecosystems;**
- **Migration of radionuclides Cs-137, Sr-90 on contaminated agrolandscapes of Forest-Steppe zone;**
- **Development of complex adaptogenic antioxidant-mineral-vitamin preparations for young agriculture animals;**
- **Integral management of agrosphere nature resources.**

Olexandr Bonkovsky

- - Head of International Department, Deputy Director of the Institute of European Integration.
- Experience :
